

New HIV Testing Technologies: Implications for Your Laboratory

JANUARY 12, 2017 • 1:00-2:00PM EST • ATLANTA, GA

Kevin P. Delaney MPH, Ph.D.
Epidemiologist, National Center
for HIV, Viral Hepatitis, STD and
TB Prevention, NCHHSTP, CDC

Since CDC and APHL recommended a new test algorithm for laboratory diagnosis of HIV infection in 2014, new HIV tests have received approval for use in the US. This intermediate-level presentation will review the 2014 recommended algorithm, newly approved HIV test technologies and their implications for the algorithm. Potential challenges and opportunities that these new technologies create for your laboratory will be discussed.

FREE WEBINAR

REGISTRATION DEADLINE IS JANUARY 5, 2017

- Locate the course online under Live Webinars at www.cdc.gov/labtraining.
- Follow the link to register for the course in TRAIN.
- Registration deadline is one week prior to the webinar.
- Once you have registered, you will receive a detailed confirmation letter by email.
- This webinar will be archived on TRAIN approximately 3 weeks after the live event.
- The webinar has 1000 seats available on a first come first served basis.
- If you have difficulty with the online registration process, please email labtraining@cdc.gov.

CEUs:

The Centers for Disease Control and Prevention, Laboratory Training and Services Branch, is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program.

This webinar is approved for 1.0 hour of P.A.C.E.® credit, and has been approved for 1.0 contact hours in the General (Microbiology/ Mycology/ Parasitology) category for Florida Laboratory Licensees.

P.A.C.E.® Course#: 288-002-17 Fl. Course#: 20-545825

Sponsored by the National Laboratory Training Network (NLTN). The National Laboratory Training Network is a Training System Sponsored by the Association of Public Health Laboratories (APHL) and The Centers for Disease Control and Prevention (CDC) <http://www.aphl.org/training/Pages/overview.aspx>

This training was supported by Cooperative Agreement # NU60HM000803 funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of CDC or the Department of Health and Human Services. This project was 100% funded from a federal program with federal funds of \$1,722,464.00.

Objectives:

At the conclusion of this program, the participant will be able to:

- Discuss the latest HIV testing technologies
- Describe the implications of new testing technologies on the 2014 HIV testing recommendations for US laboratories
- Discuss the possible challenges and opportunities the latest HIV testing technologies present for laboratories in the US

Level of Instruction:

This intermediate-level webinar is of interest to public health laboratory professionals.

Access Requirements

To participate in this webinar, you will need a computer with internet access and speakers or a headphone to hear the audio.
